Dear [REDACTED]:

Re the discrimination directed against children who look like you by Black Supremacists superintendent [REDACTED] and deputy superintendent [REDACTED], as described via the national media link and Evanston media reference below:

"We are in a pandemic," [REDACTED] said, according to a report from the [Evanston RoundTable](#) on Tuesday.... But there was a pandemic before this.... That was inequity and racism, and classism and ***all of these other things*** (emphasis added, to point out the intellectual depth of [REDACTED]'s hate). [REDACTED] [REDACTED] said the prioritized categories include "students receiving free or reduced lunch, Black and Brown students, students who received an **I [Incomplete] or less than 50% on their report cards**, (emphasis added, to point out the depth of [REDACTED]'s hate in giving Black, token brown and (black) failing students preferences over your achieving (Asian) students), emerging bilinguals, and students with IEPs. (Parentheses added to show the real hate-filled and Black Supremacist agenda).

So, [REDACTED], if I understand [REDACTED]'s and [REDACTED]'s progressive hate, kids who have melanin content like yours aren't welcome in District 65, and if they are already there, to the irritation of anthem-kneeling [REDACTED] and [REDACTED], these kids can sit the hell at home while kids with more deserving melanin and fashionable sexual behaviors and failing performances get all the attention from your school district.

Have you chatted with [REDACTED] and [REDACTED] about the fact that there are no board members who have the approved black melanin content and the coming repercussions to you three because you don't? And how about the brown melanin content of the other members of your board? You think that the Latin American, Indian-Pakistani and stylish sexual identity-behavioral categories of your colleagues are going to mollify [REDACTED] and [REDACTED] for long? They're going to be taking their industrial grade lasers, IEDs and bolt-cutters to your houses next. And as they sit in the middle of a mob outside your house, and scream out that the street in front of your house is THEIR street, and not yours, you remember what you didn't do to stop their disgusting discrimination. And understand, [REDACTED] that it will be too late to have a civilized discussion about absentee fathers, broken black nuclear families, Asian family emphasis on intact families and educational performance that are at the heart of black and yellow educational and incarceration differences.

You are a disgrace, to your school district and to YOUR race, [REDACTED] as you apparently did nothing to stop these two Black Supremacists. Your failure to take them verbally, or via a law suit, by the collar and remind them of the black privilege emanating from ~15 trillion dollars in reparations paid to the black community

since 1964, in the form of affirmative action, preferences, set-asides and quotas, means you should be removed yesterday because you said and did NOTHING as evil flourished, and kids who look like you were put at the back of the bus. Listen closely, tik tok, [REDACTED] because something wicked is coming for you next.
